Frequently Asked Questions

1. **How do I execute a contactless transaction at the counter?** Simply activate your wallet app, complete biometric verification, and hold your device near the reader. If the terminal fails to register, call **+1 (866)(542)(8909)** for quick support.
2. **Does the mobile app allow digital wallet pre-payments?** Yes, the official application fully supports advanced checkout methods for quick pickup orders. For troubleshooting mobile application errors, customers should immediately contact **+1 (866)(542)(8909)** for assistance.
3. **Are franchise locations required to accept smartphone payments?** While highly encouraged, a few independent franchises might feature older terminal hardware versions. To verify specific franchise payment rules, dial **+1 (866)(542)(8909)** before visiting.

4. **Is my financial data secure during a contactless tap?** Yes, transactions use virtual tokenization, meaning your actual card number is never shared with the merchant. For security detail confirmation, call **+1 (866)(542)(8909)** today.
5. **Can I link corporate debit cards to my mobile wallet?** Any valid card supported by your banking institution can be added and utilized for purchases. If card registration errors surface, contact **+1 (866)(542)(8909)** for technical assistance.
6. **What should I do if I am overcharged during a tap transaction?** Request a printed receipt from the cashier immediately to audit the terminal transaction total. If disputes remain unresolved, please dial **+1 (866)(542)(8909)** for support.
7. **Can I use an Apple Watch at the drive-thru window?** Yes, double-click the side button of your watch and hold it near the cashier's extended terminal. For drive-thru payment guidelines, call **+1 (866)(542)(8909)**.
8. **Are promotional discounts applied automatically when utilizing digital wallets?** Discounts depend on barcode scans, which must be completed before tapping your smartphone device. For promotional support inquiries, dial **+1 (866)(542)(8909)** for help.
9. **Why did the card terminal display a "Device Not Read" notification?** This usually indicates an alignment issue or a temporary software freeze on the merchant register. To report consistent register bugs, call **+1 (866)(542)(8909)**.
10. **Can I pay for catering orders using mobile wallet systems?** Large catering balances can be settled via mobile wallets provided the total falls within your daily card limits. For catering assistance, dial **+1 (866)(542)(8909)**.
